TSC Clinic vs. TSC Center of Excellence

- **TSC Clinics** with *Established Status* designation will require renewal every 3 years. *Provisional Status* designation may be granted for select situations and will require renewal every year, with expectation that progress toward *Established Status* designation has been made in the interim. Reasons for *Provisional Status* designation may include:
 - First-time applications
 - Lapsed renewal
 - New leadership
 - Need to address additional areas of concern or deficiency
- **TSC Centers of Excellence** may only be granted with *Established Status* and will require renewal every 3 years. TSC Centers of Excellence unable to meet requirements for renewal as COE or with additional areas of concerns or deficiency will revert to designation as a TSC Clinic but are encouraged to re-apply for designation as a TSC Center of Excellence as soon as eligibility requirements are met and/or areas of concern have been resolved.
