BREAK | Blueberry Hill

11 am – 12 pm
Track 1: Pediatric – Seizure Types and Treatments | Redbud AB
This session will provide information on how TSC impacts the brain, seizure types common in infants and children affected, and an overview of rescue medication.

Moderator: Shelly Meitzler, Director, Community Support & Outreach, TSC Alliance
Speakers:
- Jamie Capal, MD, Associate Professor of Pediatrics and Neurology at the University of North Carolina at Chapel Hill and the Carolina Institute for Developmental Disabilities
- Mary T. Silvia, MD, Director, Wake Forest Baptist Medical Center Tuberous Sclerosis Clinic
- Muhammad Zafar, MD, Co–Director, Tuberous Sclerosis Complex Center of Excellence, Duke Medical Center

Track 2: Adult – Seizure Types and Treatments and Adult Seizure Action Plans | Dogwood AB
This session will provide information on how TSC impacts the brain, seizure types common in adults affected and using rescue medications.

Moderator: Elizabeth Skufca, Community Programs Manager, TSC Alliance
Speaker: Jane Bogggs, MD, Co–Director, Wake Forest Baptist Medical Center Tuberous Sclerosis Clinic

12 – 1 pm
LUNCH | Trillium AB

1 – 2 pm
Track 1: Pediatric – The Importance of Personalized Medicine in the Management of TSC in Community Living Settings | Redbud AB
This session will provide resources and information to coordinate personalized medicine management of TSC in medical homes and other residential community settings.

Moderator: Shelly Meitzler, Director, Community Support & Outreach, TSC Alliance
Track 2: Adult – Kidney Tumors, Cysts and Treatment Options | Dogwood AB
This session will explore current approaches to caring for patients with kidney symptoms, including medical and surgical interventions.

Moderator: Elizabeth Skufca, Community Programs Manager, TSC Alliance
Speaker: David Ortiz, MD, Duke University Hospital

Track 2: Adult – Skin Manifestations and Treatment Options | Dogwood AB
This session will provide an overview of consensus guidelines, discuss treatment options (including surgical removal and FDA–approved medications) and highlight how clinical presentations vary across different skin tones.

Moderator: Elizabeth Skufca, Community Programs Manager, TSC Alliance
Speaker: Elizabeth Nieman, MD, Pediatric Dermatology, University of North Carolina at Chapel Hill

General Session: Understanding the Genetics of TSC and family planning | Redbud AB
This session will provide an overview of the genetics of TSC and family planning options. Maternal Fetal Medicine experts will cover how to navigate reproductive and perinatal health decisions through postpartum, current gaps in consensus guidelines for care, diagnosing TSC in utero and what’s on the horizon. Additional specialists will provide health considerations for women with TSC and/or LAM when making reproductive decisions.

Moderator: Dean J. Aguiar, PhD, Vice President, Translational Research, TSC Alliance
Speaker:
- Lara A. Friel, MD, PhD, Maternal Fetal Medicine Specialist, UTHealth; Associate Professor, University of Texas Health Science Center at Houston/The McGovern Medical School; Co–Chair; TSC Alliance Reproductive and Perinatal Initiative
- William Goodnight, MD, MSc, MFM, Physician, University of North Carolina
